

7 September 2017

Dear Parents and Carers,

Your son/daughter has just started a two-year GCSE Geography course, with three exams at the end of Year 11. Therefore, it is important that over the next two years' students keep on top of their knowledge, skills and understanding as they go along rather than leaving everything until the end of year 11.

To help students with their revision the Geography department will be setting regular assessments in the form of homework's and end of topic tests, as well as revision sessions. While the department will be providing revision resources we feel that some of the professionally produced revision guides are tailored to the new Geography AQA 9-1 syllabus, can also help with student's learning.

There are a number of good quality revision guides available, and as a department we feel the best deal is available from Pearson. The link to the website is given below if you would like to have a look yourself. We have no hesitation in recommending these books for your son/daughter.

If you were to order the revision guides and workbook through the Academy there is a worthwhile saving, which is shown below. When purchasing the revision guide it also includes an online addition. You can of course order them yourself via the company website.
